

Tiki Wiki CMS Groupware

Started in 2002, **Tiki Wiki CMS Groupware** is a web application combining the features of a wiki, a content management system (CMS) and groupware. It is the free/libre and open source (FLOSS) web application [with the most built-in features](#). It can be used to build all sorts of web applications: simple sites, complex portals, knowledge bases, intranets, extranets, and so on. The source code of Tiki is available under the LGPL version 2 software license. See also [Why Tiki Wiki CMS Groupware](#). The most powerful and flexible feature is: <http://tikitrackers.org/>

Tiki is a key [component](#) of WikiSuite.
