WikiSuite is the most comprehensive and integrated Open Source enterprise solution

- **Comprehensive**: WikiSuite offers most (over 80%) of the data and information management features all organizations need.
- **Integrated**: The end goal is that all parts of WikiSuite look and act consistently. One login for everything, one search box for everything, and so on. We still have quite a way to get there, but we are closer than the other Open Source offerings, and have a realistic roadmap to get there. A key reason is that our main web component is the FLOSS web application with the most built-in features.
- **Open Source**: Free / Libre / Open Source software (FLOSS):
- **Enterprise solutions** address organizational needs: security and auditability, compliance, interoperability, professional services ecosystem, training, etc.
