Description

Add Team functionality to password management (web access to KeePass data)

Reported by

Marc Laporte

Priority

4

Area

Tiki Wiki CMS Groupware

Syncthing

KeePass

Details

We need to add a web interface to KeePass data, and from there add team features (logging of access and edits, restrict to groups, etc.)

<https://sourceforge.net/p/keepass/feature-requests/1402/>

<https://sourceforge.net/p/keepass/feature-requests/1668/>

<https://suite.tiki.org/KeePass>

And Syncthing can be used to shared files amongst team members

Nextcloud has at least 3 password management options which should be looked at

Browser integration is a top priority:

<https://developer.mozilla.org/en-US/Add-ons/WebExtensions>

<https://medium.com/passbolt/how-passbolt-will-implement-groups-ee49108a6ff1>
