WikiSuite: The most comprehensive and integrated Open Source enterprise solution.

Converse
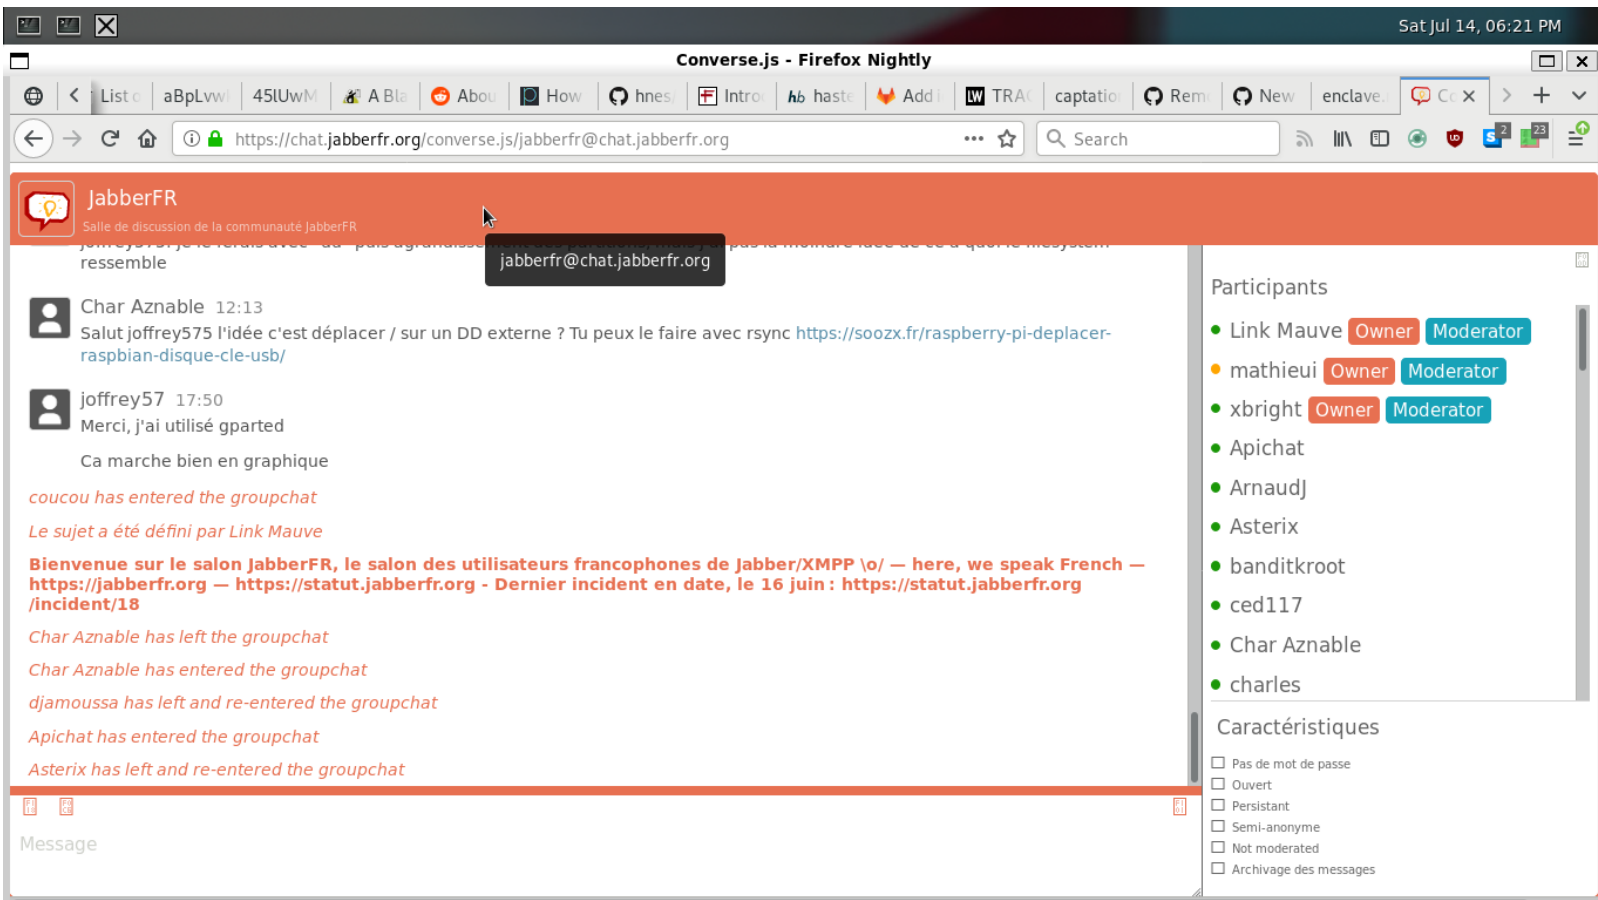

Converse is a free and open-source XMPP chat client in your browser.

WikiSuite and Converse are working closely together. Notably to convert v4 to Bootstrap

Converse offers both pop up chat and full page chat.

Converse is the built-in (but optional) XMPP client in Tiki Wiki CMS Groupware: https://doc.tiki.org/XMPP

Guus, time to update to 4.0.1 then! 😃

Guus 18:57
Woah! I missed 4.0.1?

Niiiice

Ah, 2 hours ago.

In our defense, our plugin got released earlier.

jcbrand Converse.js Author 19:12
I'm currently writing a blog post for the 4.0.x release

...

Cheeky wipes... very funny 😛

I ordered them

towns between multiple tabs or windows. I think that applies to popup windows as well.
16:14 jcbrand: About the vCard image, it gets cached after first fetch
16:15 UK Vaidya: So how to get directly from server without using cached image
16:36 jcbrand: There's no vCard api for converse.js currently
16:36 jcbrand:
So is possible, but you'll have to read the vCard code to check how you could hook into it
16:36 UK Vaidya: 😐 ☹
16:37 UK Vaidya: oki. il go through it

Friday Jun 9th 2017
16:26 galxy:
hello guys, this may be a noob question. Sorry about that in case. May I use converse.js in order to replace my live support system? Anonymous accounts could work that way? I would like to let visitors try and write the owner directly, with no registration
17:57 SouL: galxy: i think it is possible, but I'm not at a computer right now
17:58 SouL: jcbrand maybe knows something
17:59 galxy: SouL, thanks a lot!
17:59 SouL: Just have a little bit of patience, please 😊
18:03 galxy: I will, that's too kind

Saturday Jun 10th 2017
08:40 jcbrand: Hi galxy, should be doable with anonymous amounts.

Sunday Jun 11th 2017

Tuesday Jun 13th 2017
15:59 Shubham: hii any one who can help me?
16:00 Shubham: i want to use login basis of session
16:00 Shubham: and i m using openfore server'
16:01 Shubham: openfire*
16:01 Shubham: ???
