Dolibarr

Dolibarr ERP & CRM is a powerful, free, and Open Source software package that provides a comprehensive suite of tools for managing business operations. It is an all-in-one solution that integrates the functionalities of Enterprise Resource Planning (ERP) and Customer Relationship Management (CRM) into a single, user-friendly web application. The Dolibarr project was initiated by Rodolphe Quiédeville in April 2002. The first version was released in September 2003. It is released under the license GNU GPL v3+. It is managed by the Dolibarr Association.

The stats from https://www.openhub.net/p/dolibarr/ are missing data (but was reported and we are waiting for a fix). In the mean time, you can check stats from:
