Synonyms for tagline

We will replace The most comprehensive and integrated Open Source enterprise solution because it's too long.

What we wanted people to understand	Potential terms (please add yours ideas!)
WikiSuite offers most (over 80%) of the data and information management features all organizations need.	Comprehensive / Complete / Versatile / Broad
The end goal is that all parts of WikiSuite look and act consistently. One log-in for everything, one search box for everything, and so on. We are not 100% there yet, but we are closer than the other FLOSS offerings, and have a realistic roadmap to get there. A key reason is that our main web component is the FLOSS web application with the most built-in features.	Unified / Integrated / All-in-One /
Free / Libre / Open Source software (FLOSS): https://en.wikipedia.org/wiki/Free_and_open-source_software.	Open Source / Open Source Software
The enterprise suite category is for solutions for organizations that cover more than 10 traditional software categories in an integrated fashion (for example, log-ins work throughout all features, etc.). Software categories differ depending on the source and evolve over time - here is a typical example.	Enterprise
Continuously being developed	We'll stop using this, as it's assumed
