WikiSuite: The most comprehensive and integrated Open Source enterprise solution.

Tiki Wiki CMS Groupware

Started in 2002, **Tiki Wiki CMS Groupware** is a web application combining the features of a wiki, a content management system (CMS) and groupware. It is the free/libre and open source (FLOSS) web application with the most built-in features. It can be used to build all sorts of web applications: simple sites, complex portals, knowledge bases, intranets, extranets, and so on. The source code of Tiki is available under the LGPL version 2 software license. See also Why Tiki Wiki CMS Groupware. The most powerful and flexible feature is: http://tikitrackers.org/

Tiki is a key component of WikiSuite.

Our Intranet

Improving collaboration

HomePage

Congratulations

This is the default HomePage for your Tiki. If you are seeing this page, your installation was successful. You can change this page after logging in. Please review the wiki syntax for editing details.

Get started.

To begin configuring your site:

1. Log in as the admin with password admin.
2. Change the admin password.
3. Enable specific Tiki features.
4. Configure the features.

Need help?

For more information:

- Learn more about Tiki.
- Get help, including the official documentation and support forums.
- Join the Tiki community.
