Xibo

Started in 2008, **Xibo** is a free and Open Source digital signage solution comprised of a web-based content management system on the server side and the choice of Windows or Android signage players for the client side. The source code of Xibo is available under the AGPL software license version 3.0.

Xibo Installation
Welcome to the Xibo Installation!
Thank you for choosing Xibo. This installation wizard will take you through setting up Xibo one step at a time. There are 6 steps in total, the first one is below.
Installation guide »
Create a new database
Use an existing database
Xibo needs to set-up a connection to your MySQL database.
If you have not yet created an empty database and database user for Xibo to use, and know the user name / password of a MySQL administrator stay on this tab, otherwise click "Use Existing".
