

Xibo

Started in 2008, **Xibo** is a free and Open Source digital signage solution comprised of a web-based content management system on the server side and the choice of Windows or Android signage players for the client side. The source code of Xibo is available under the AGPL software license version 3.0.

WikiSuite: The most comprehensive and integrated Open Source enterprise solution.

Save Position

Region Timeline

The screenshot shows the 'Region Timeline' interface. On the left is a vertical menu titled 'Add Media' with options: Library, Clock, Data Set, Embedded, Flash, Image, Local Video, PowerPoint, Shell Command, Text, Ticker, Twitter, Video, and Webpage. A red box labeled 'Available media types to assign.' points to this menu. In the center, two media items are shown: 'Text (15 seconds)' and 'Ticker (60 seconds)'. Each item has a black header with 'Edit Delete Permissions' and a colored body (yellow for text, green for ticker). A red box labeled 'Assigned Media' points to these items. On the right is a large empty rectangular area labeled 'Hover Preview Area'.

Save Order Switch to Grid Help Close

Assign an item from the Library

The 'Assign an item from the Library' dialog box is shown. At the top right are buttons for 'Save Order', 'Switch to Grid', 'Help', and 'Close'. Below the title bar is a staging area containing a selected item '34.wmv'. A red box labeled 'As content is selected it appears in this staging area, ready to be assigned when the "Assign" button is pressed.' points to this item. Below the staging area are input fields for 'Name' and a 'Type' dropdown menu set to 'All'. A table lists available media items:

Name	Type	Duration	
3.avi	video	0:00:00	+
34.wmv	video	0:00:00	+
35.wmv	video	0:00:00	+
55.wmv	video	0:00:00	+
2010-01-23 20.56.07.jpg	image	0:00:10	+

A red box points to the '+' icon in the last column of the table. At the bottom right are buttons for 'Help', 'Cancel', and 'Assign'.

Region Timeline

2. The other items will move to make room.

1. Drag the media item that needs to be resequenced.
