Media Studio

This page is to document how to use WikiSuite with the right hardware to address various media studio use cases. The studio should be portable and affordable.

Use cases

- Videoconferencing. Ex.: https://meet.jit.si/
  - Team or individual
- Slidecasting
- Webcast
- Screencast / Recording studio

Equipment

All use cases

- 1 laptop with webcam
- 2nd and even 3rd monitor. Ex.: USB powered monitor. Why more than one monitor? Each monitor can have different purposes
  - See what is happening at the other end
  - Show what you are broadcasting
  - Agenda and meeting notes
  - Teleprompter
  - Messages in a chat room

Team

- Speakerphone
- External webcam

Individual

- Headset
