While Wikipedia is the broadest unified body of knowledge, WikiSuite is the most comprehensive and integrated Open Source enterprise solution. WikiSuite is especially suited to knowledge-centric organizations and offers most (80%+) of the data and information management features all organizations need.

- ✔ Free / Libre / Open Source Software (FLOSS)
- ✔ Self-host or Software as a Service (SaaS)
- ✔ Verifiable Security
- ✔ Community-managed
- ✔ Extensive web admin panels
- ✔ Paid support is available
- ✔ No vendor lock-in
- ✔ Integrated and Extensible Solution
Your data is priceless. Stay in control!

WikiSuite empowers organizations to better manage, secure and use their information, to become data-driven, and achieve their optimal performance ➔ OUR MISSION.

Always Have the Latest Version and Access to Previous Ones

- Backup
- Versioning
- Master Folders
- Files of Any Size
- Search within Files
- Multi-Device File Sync
- Offline Access

More Info
WikiSuite Blog

To the WikiSuite community,

Today, we announce that, going forward, WikiSuite will become supported on all major Linux distros (CentOS, Ubuntu, Debian, etc.) building on the experience gained with ClearOS. This has been happening for several months 

In April 2020, Grant for the Web announced a public call for web monetization project proposals eligible for one of three levels of funding: Spark, Mid-Level, and Flagship. In less than two months, applications were received from 286 applicants.

Filmed on February 26th, 2020

Here is the handbook mentioned in the video: https://18f.gsa.gov/2019/08/05/budgeting-handbook/
