

# WikiSuite vs Microsoft

WikiSuite can be seen as a FLOSS

self-hosted alternative to [Office 365](#) and most Microsoft software, to manage your organizational data.

|                                                |                                                                                                                                                                                                                                                                                                                 |
