WikiSuite vs Sandstorm

Sandstorm and WikiSuite have some similarities. This page is to explain the differences and rationale of choices. You likely will be interested in the other alternatives to WikiSuite.

Similarities

- Both are FLOSS self-hosting platforms offering a large number of features.

Differences

Sandstorm is more about helping self-host a selection of high quality apps (with more than one option for the same use case) while WikiSuite is about offering you an integrated solution (which you can self-host)
