I read the CRM page and wonder why you wouldn't look at using SuiteCRM as the CRM and then define the connections to Kolab etc. ?

WikiSuite: The most comprehensive and integrated Open Source enterprise solution.

SuiteCRM is open source (fork from SugarCRM but much improved).

It did run on ClearOS but it was a manual install.

Good question

In general, we want as few apps as possible, but as many as necessary, because of

[https://en.wikipedia.org/wiki/Combinatorial\\_explosion#Communication](https://en.wikipedia.org/wiki/Combinatorial_explosion#Communication)

What are the key features you think are better in SuiteCRM?

Now that we have a great webmail:

<https://dev.tiki.org/Cypht-integration>

WikiSuite will evolve into a great CRM!
